

LIVESTOCK HEALTH SECTION

Name of the scheme:

Veterinary Health Services, Medical store and Vaccine Depot. Animal Disease Diagnostic and Intelligence Unit.

Objective:

To provide Veterinary Health services to Farmers, Livestock Owners and Pet Owners. So as to maintain proper health of Livestock Veterinary Hospital and Veterinary Dispensary are established and necessary treatment for sick animals and prophylaxis for various disease are done by way of vaccination against various diseases of livestock.

Activity:

This scheme aims that the animal owners maintain their animal in proper health in order to get sustained benefits by way of the products obtained from them and the income generated through them are available for their lively hood. Apart from this the health service not only covers the health of animals but also the public health by way of containing the spread of number of Zoonotic diseases spread through animals namely, Brucellosis, Rabies, Tuberculosis, Anthrax etc.,

Details and functions of staff:

The Joint Director (Livestock Health) is the supervisory officer of this scheme. The Joint Director allocates funds required for implementation of the scheme.

The Development of infrastructural facilities for the institution, maintenance and supply of inputs to the institution like Medicine, Vaccine, Equipments etc., and providing diagnostic support by establishing and maintaining Disease Investigation Centre and Clinical Laboratories are the main responsibility of the Joint Director.

The health services are carried out by the respective Veterinary Assistant Surgeons incharge of the Veterinary Institution and they look after the sick and ailing animals in their jurisdictions with the help of the supportive staff. They conduct periodical vaccinations and control spread of disease among livestock.

The details of services rendered by the staff of the established Veterinary Health institutions in various places are detailed below:-

REGIONWISE DETAILS OF INSTITUTIONS PROVIDING VETERINARY HEALTH SERVICES

Region	VH	VD	MVD	MiVD	DIC	CL	CVMS
