

## **FUTURE PLAN OF ACTION**

By the end of 2010, it is proposed to make this Union Territory a child labour free state. In the coming years, it is proposed to involve NGOs more in the rehabilitation of child labour by granting financial assistance to them for running special schools for child labour and Tuition centres for drop-out children and to create awareness on child labour through various means. It is proposed to introduce new trainings to the women hailing from labour families to suit the day to day trend.
